SWAYAMKRUSHI

1. About the organization:

Swayamkrushi is a voluntary organization established in 1991 and is located in Secunderabad, Andhra Pradesh. It was the only institution of its kind in the country and has been spear heading the movement to increase the awareness about and inclusion of adults with developmental challenges into the society / community. It is dedicated to the rehabilitation, education and integration of adults with developmental / intellectual disabilities. The aim is to build and develop a symbiotic relationship between the disabled individuals and their immediate community. This has helped in bridging the existing social and emotional chasms between the community and the disabled individuals. This has proved to be a grand success.

Recognizing its contribution to the cause of mainstreaming persons with Intellectual Disability, Swayamkrushi has been made the State Nodal Agency Centre (SNAC) for the National Trust (Ministry of Social Justice & Empowerment). The National Trust was established by an Act of Parliament in 1999 for the Welfare of persons with Autism, Cerebral Palsy, Intellectual Disability and Multiple Disabilities. National Trust works towards providing opportunities for capacity development of persons with disability and their families with an aim of facilitating them, promoting the creation of an enabling environment and an inclusive society and thus fulfilling their rights.

VISION STATEMENT

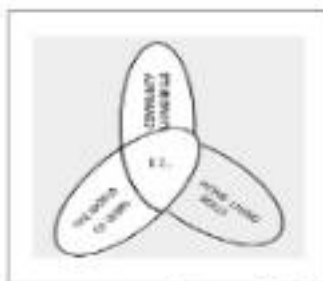

To build a society in which the less fortunate persons live with dignity, pride and as productive members of the society.

MISSION STATEMENT

To house and train intellectually challenged adults before facilitating their employment and independent living within the community

SWAYAMKRUSHI'S CURRICULUM FOR INDEPENDENT LIVING (I.L.)

The curriculum that we follow makes them independent

Preparation for

Life at home
Life at Community
The world of work
Transition from School

Community living skills:

1. Mobility
2. Stores & Services
3. Restaurants
4. Recreation

OBJECTIVES:

Rehabilitation of Intellectually Challenged

The core idea consists of placing the challenged individuals in 'Group Homes' while providing them supervision and training. Each home has eight trainees and is managed by a resident staff member. The model aims at -

- Providing family life for the young people with intellectual disabilities.
- Provide opportunities to people with intellectual disabilities to undergo normal developmental experiences.
- Give experience to people with intellectual disabilities in the management of household work independently.
- Ease people with intellectual disabilities into the idea of living in one place and work at another place just like other normal persons of the society.
- Facilitate the integration of the intellectually challenged persons into the community.
