Shree Navjivan Viklang Sevashraya Bhachau (Kutch)

Introduction

Greetings to all,

today is the 17th and 18th year of which we are presenting in this preamble the thoughts and ideas of the past year when the time came to prepare a booklet with activity accounts.

Shri Navjivan Viklang Sevashraya is not just an institution but an institution in the form of butter. The past of Vagad We all know that Kutch district and the land to the east of it is called Vagad. What is the point of self-employment and education in an area where even the most beautiful trees are not fortunate enough to endure drought conditions from time to time? Concerned about all these matters, Bhachau's natives and father-in-law, who had come and settled in Bhachau for business purposes, decided in 1991 to make a living in the lives of needy, poor, economically backward and weaker class children of the area.

As if God had told him something in his ear, he rubbed himself with his body, mind and money. This young man got involved in the struggle for education and development. Immediately, he felt that his passion for social service with the passion of youth was also a blessing of nature. With the help of this mantra, the development of the institute increased day by day and many well-known social activists became the leaders of this institute. Through day to day propaganda and dissemination, the needy people came to the institute and one day it passed. In the same way that the idea of existence became a caravan. Today, about 1000 (one thousand) beneficiaries with very large buildings are benefiting under the umbrella of this organization. At the same time, about 100 (one hundred) employees are getting self-employment and day by day, by betting on development, it seems that the organization is rushing to make the form of education meaningful in Vagad. And yet this institution works very well for educational development. The organization has started working in that direction, let's all come together and witness and collaborate in the development of Vagad i.e. in the educational development i.e. in the educational development

**Founder Secretary

Shree Navjivan Viklang Sevashray Bhachau (Kutch)

Established 26 July 1991

as you know what is created. Its development is also certain. After the birth of everything, the creature or the created thing traditionally grows. Similarly, our organization was established in the year 191 and has now completed 3 years. At that time, with the cooperation of all of you, the organization is making a humble effort to become self-reliant by becoming a participant in the development of the society by caring for different people in different places. As a part of which the organization is conducting various activities at the following places. Let's get the information.

Smt.Minaxiben Prafulbhai Babulal Satra Girls Hostel - Bhachau

The hostel is sheltering children from various castes with disabilities and weak families. And beautiful life is spent with study. Girls are admitted here free of cost without any discrimination on the basis of grandchildren, through which babies can complete their studies from Std.5 to college level. So far, more than 930 girls have benefited from this hostel. At present about 50 girls are studying in this hostel. Arrangements like tea in the morning, breakfast - lunch - evening breakfast - dinner are provided. Excellent accommodation is provided. The organization makes sincere efforts to cultivate children, play sports, cook, clean and make them very useful for their personality development. In the near future, the organization working in Vagad area has been working with the spirit of taking advantage of more and more children and moving forward in life.

Smt.Madhuben Thakrshibhai Gandubhai patel (Simpolo Ceramic Morbi) Primary School

Welcoming the desire of the institute to go to school, with the full cooperation of Donors Thakarsibhai, a participant in the school development of the institute, a beautiful educational system was made available by the institute for girls and boys from standard 5 to 10 with the construction of school building. Efforts are being made by the organization to take his life to a higher goal. Lessons of social harmony, mental development, cleanliness and patriotism are taught.

Sheth chunilal Gagaldas Shah Boys Hostel - Bhachau

The organization is running a hostel for needy, destitute and weaker class boys. Accommodation and meals are being provided free of cost. Arrangements like tea, breakfast, lunch, breakfast and dinner are made available to them. Excellent accommodation is provided. So far about 30 beneficiaries have benefited from this Kumar Hostel. And currently 30 Kumars are living and studying inside the hostel. The upbringing of the children is being done in such a way that they also become collaborators of nation building. It is said that writing an acre on a blank slate makes it look beautiful. In the same way, the education of the children of the poor seems to be as beautiful as one in a blank slate. So this unit is running the organization. And the organization is making a small humble effort to make the bright bed in their lives educational.

Shri Navjivan Viklang sevashray secondary School

Last year, the institute got the approval of Std. 9 to 12 for the children from Std. 9 to 10 to get education in the school. At present 55 children of two classes from standard 9 to 10 are getting beautiful education. In the near future, the institute is also seeking to get approval for Std. 11 and 12 and also to arrange for higher studies. Donor collaboration is then essential to meet the costs of non-granted schooling. So the organization has also made a plan to name the school next time. In which Rs. 2100000 / - Twenty one lakh will be given to the donor. That name will also be registered with the government. The organization also needs a new building for this unit so the donors of the building will also be welcome. The institute has also decided to set up a school with all the public sentiment that the higher education unit adopted by the donors will be set up at Bhachau in Vagad area.

Shri Parmaben Bhurabhai Malshi Gada (Paramshanti English School)

The demand of modern times is technology. It is essential for us to have knowledge of English language in order to settle down. For what Ordinary family children do not have the right to get English medium education? But in the midst of so many desires and aspirations for the development of children - it is natural that having two or three children at home due to the limited income of the father cannot give such an expensive education to the children so that. In order to embody that spirit, the school of English medium education has been functioning in the new Bhachau area for the last 8 years on a no-profit no-loss basis. In which LKG. Education is being imparted from Std. 10 to present. In which about 50 children are studying with all the beautiful facilities. In the near future, standard 11 and 12 i.e. secondary department will also be started by this institute. So that this institute will definitely shape the educational career of those children up to standard 12 and the institute will always be ready to satisfy the education hunger of the needy children. In which there is no doubt.

Matrushri Bhamiben Pramji Punjabhai Nishar English Higher Secondary School

Mr. Bhamiben Premji Punjabhai Nishar, an elder educator from Lakadia village in Mumbai, who is a participant in the development of Vagad, and his family are concerned about the development of educational and social activities in the Vagad area, even if they stay in Mumbai forever. He has served as an active worker of Shri Navjivan Viklang Sevashraya. Because for the first time in Vagad, higher secondary education in Bhachau was not the only English medium standard 11 and 12 which was started by Nishar Parivar by making a huge contribution and making a name for itself in secondary school. An English medium school has been started at Bhachau as part of the community's approach to education.

Vividhlakshi Mahila kalia Kendra - Bhachau, Nakhtrana, Bhuj

For the underdeveloped girls and women of the society organized by the organization, going to the villages and organizing gram sabhas by the social worker sisters, their lives are an invaluable gift given by God. The sisters are also given knowledge on how to protect women from the value of law through her fitness, health care, physical development and legal knowledge, women's development and full understanding of women's physical development. How health can be done by households and making education compulsory for the next generation is also strongly emphasized. 75% grant is given by the Women and Children Department of the State Government for running the scheme. The remaining 25% is being run well by the financial institution.

Shree Navjivan Viklang Sevashray - Disability Activities

Why do you leave Kutch and do activities elsewhere? But let me tell you instinctively that the aim of the organization is always to develop the underdeveloped sector and reach out to the needy and connect the deprived community with the services of the society. As part of which the organization visited the area of Rankantha village and undeveloped area and also the people with disabilities who are deprived of government and social services really needed support as part of which the organization started working in the year 2000. All useful equipment facilities Medical disability certificate, S.T. PASS, RAILWAY PASS, EDUCATIONAL SCHOLARSHIPS SPECIFICATION. Such small matters are being crafted by special expert teachers in this hostel. Teachers are teachers registered with the Government of India (RCI) Rehabilitation Counseling of India. Through which such children are given important training in the hostel by the organization so that they can live their lives independently. All the facilities like accommodation, meals, bathing and washing are provided to them free of cost. So far about 180 beneficiaries have taken advantage of this hostel. And at present about 50 disabled beneficiaries are benefiting from this hostel. In the near future, such children will be able to stand on their own two feet and become self-employed. At the same time, the institute is planning to provide such trainings in the future which are not burdensome in the society but useful to the family. Donors are requested to be generously involved in this noble cause by insisting on purchasing items made by persons with disabilities and thanking children with disabilities for indirectly cooperating.

Inclusive Education Halvad

Let me tell you, this scheme is a 100% sponsored scheme run by a joint venture of both the Government of India and the State Government. As part of this scheme run by the organization all over Gujarat, this organization of Halwad has been given the responsibility by the Government to work in areas like Halwad, Chotila, Maliya, Wankaner, Tankara, Thane and Morbi. Starting from the survey of children with disabilities and giving them medical certificates on the basis of which they are admitted in the school and the work of imparting higher education up to standard 12 by special expert teachers is being done by the institutions through this scheme. In which due to the spirit of complementary cooperation service and successful management of the institutions, the disabled children or physically handicapped students will always be ready to complete their studies up to standard 12. As part of the successful operation of the scheme, the institute has done the work of imparting education to 150 students from different talukas last year. As a result, the institute and its various teachers have been successful in passing the visually impaired and mentally retarded students in Std. 10 and Std. 12 last year. With that, Rs. As many as 200,000 children with disabilities have shown their talents and won prizes in the field of sports. In this way, this organization has become an integral part of needy children and is spreading the

Physiotherapy Center - Halvad

The organization has long been concerned about setting up a physiotherapy center. This year, the organization has made a firm decision and is committed to developing and managing children with multiple disabilities. Behind which Rs. It is expected to cost Rs 251,000. Donors are requested to accept the conditional financial donations to meet these expenses. The center will provide physiotherapy to any patient with a disability, paralysis, paralysis, or a bone

Annual Report

**Activities performed related to the National
Trust disabilities.**

Birthday Celebration

We celebrate group birthdays on the second Sunday of every month; we are celebrated simply by planting TREES in the Campus. Happy Birthday to All...

National Festival Celebration

We always celebrate the Republic day, Independence Day performing cultural and entertaining activities; we enjoy our citizenship rights of SECULARISM LIBERTY and EQUALITY by honoring National Festival.

Parents Meeting

Communication between parents and administration is essential to achieve the goal of holistic development. This is a standard part of NGO's efforts to build a strong partnership between parents, staff and executives. First parents Meeting was organized to discuss about individuals progress and performance at the institute.

Medical check-up Camp

The medical check-up camp was held at Navjivan Viklang Sevashray and a total 127 adults with special need and 14 staff members were effectively screened oral health problems. This camp was made a success by Civil Hospital Morbi Team.

Job work-Self Sustainability & Productivity:-

We received an Opportunity to get low-risk job work offers as a part of productive inclusion in the day to day independent living training for residents. Rakhi making, Kodiya making individual with a severe disability is distributed among them.

Celebrating Samvidhan Day:-

The day, which is also known as Samvidhan Divas or National Law Day or National Constitution Day, also is celebrated to raise awareness about the Indian Constitution.

**Let's Dedicate ourselves
to the nation**

**Vishwaguru, nothing like that happens, you have to start
from yourself.**

**Let's worry about the farmers
Concerned soldiers and their families**

Let's create a harmonious society

Let's be aware of education

Let's be the spice of girls' education and safety

30 Services

Let's move on to health

Let's move on to cleaning

**Let's bring honesty in body and mind, use energy as
needed, worry the poor, alleviate the suffering of the
disabled**
