SIRISHA DEVELOPMENT TRUST (SDT)

ANNUAL REPORT FOR THE YEAR: 2024 – 2025

.....

From the Desk of Chairman cum Founder Managing Trustee cum

*In view of the post pandemic of Covid 19 and best efforts put to overcome with opportunities as a solution, I feel privileged with opportunity to release the Annual Report for the year 2024 – 2025. It is the happy moment that Sirisha Development Trust (SDT) has successfully completed its 5th year (2020 – 2024) of its Service Journey with addition of new Projects. SDT is in the beginning and resulted output, outcome and impact among the elders, their families, other beneficiaries, communities, children and other targeted groups are significant and motivating us to move forward to reach more such targeted groups. I express my sincere thanks to all the well wishers and donors who have supported this noble cause of serving our elders (who have contributed significantly to the Family, Community and Nation) and other targeted groups. With such guidance, motivation, and supports, our targeted groups need your continued participation and support. On behalf of the Trust, I request you all to join with us as we all together can play a better role in bringing the change in the lives of the Beneficiaries, other Targeted Groups and Communities. **Managing Trustee cum Founder***

It is interesting to note that the Founder of Sirisha development trust (SDT working since 2020 for the **Empowerment of Children and Adults with Intellectual and Developmental Disabilities**) with the support of family and other well-wishers conceptualized “**Sirisha Development Trust (SDT)**” is also working forr Elder’s Care cum Rehabilitation, Orphans, Children, Education, Vocational Training cum Skill Development, and other developmental activities concentrating in the rural villages of selected Mandals of Krishan & NTR Districts Andhra Pradesh. SDT is working under the guidance and supervision of the Founder, **M. Someswara Rao**, who is blessed with a daughter having special needs. His daughter ‘**Sirisha**’ is continuously inspiring and motivating her father and other family members to be more innovative and creative in serving the needy people as a change maker on life cycle basis with better sustainability as a solution to the concern of every parent that “**what will happen to the child after us?**”

8. PROJECTS

In view of the priorities and demand from the People and Communities, SDT has conceptualized and developed four Projects as Service Providing Centers and are shown below as:

SIRISHA DEVELOPMENT TRUST (SDT)

ANNUAL REPORT FOR THE YEAR: 2024 – 2025

**T
S**

SDT focuses on all these Four Projects which are need based matching to the challenges, vulnerabilities, living environment, skills, community needs, resources & opportunities, and other aspects of empowerment of the targeted groups for bringing change in their lives with better sustainability in an accessible, healthy and inclusive environment / community. Out of these Four Projects, the first one is the continuation from the last year (2020) and other three Projects are the addition during the last year (2023 - 2024). The details of each Project were furnished below as:

1. Sirisha special school): SDT has continued this Project for intellectually disabled children who are poor and vulnerable even for day to day living. Based on the survey, 30 children (Male 17 & Female 13) were identified who are poor, vulnerable and marginalized living in the rural parts of Gudivada and surrounding Mandals of Krishna District, Andhra Pradesh.

In addition, 5 more members (Male 3 & Female 2) who are part of the team also gets the same supports and services. These children are isolated and struggling for day to day needs and thus leading poor quality of life (QOL). The pandemic and post pandemic emerged due to Covid 19 has added burden to them both socially and economically. This is the Day Care Project and all the required services and supports were provided at their Home / Shelter itself.

In view of all such unhealthy and unsafe circumstances situated around these targeted Elders in general and particularly during and post pandemic (Covid 19), the services and supports extended during the year includes:

- ✓ Kitchen with required utensils and other machinery are maintained at the Center.
- ✓ Team takes care of the Cooking, Packing, and Distribution to the Elders at their Home.
- ✓ Cooked Food (Carriers with good menu) delivered at their Home on Daily basis.
- ✓ Distribution of Dry Ration & Vegetables at their Home on Monthly basis.
- ✓ Distribution of Sanitizers, Handwashers, Medicine, and other Supports.
- ✓ Health Care mostly on referral mode at Government and Private Hospitals.
- ✓ Other services and supports matching to individual's needs, challenges and vulnerabilities.

For these beneficiaries, SDT has also conducted various Activities / Programmes (covering: Systems, Values, Relationships, Cultural, Recreational,

Awareness cum Advocacy, Facilitation, Referrals Services, Social Benefits, Legal Issues, Issues connected with Properties if any, and others) at Center, Communities, Public Utility Centers, and other such Forums to the Elders, their Family Members, Community Members & Workers, Community Groups, Civil Societies, and others and other Stakeholders for the purpose of creating happy, healthy, protective, safe, and accessible environment for the Elders within the Families or Communities as they do have emotional attachment with their Family and Community.

In view of the limitations, SDT is managing this Project based on the Donations and Supports received from the well-wishers and others from the community and other Donors of SRC & itself. All such supports are not regular and SDT is finding difficulty to continue this Nobel Service of working for the active, happy and healthy living of the Elders within the Home / Community. It is in the process of reaching the Departments of Government, Private, Corporate, Financial Institutions, Funding Agencies, and others for getting matching supports on regular basis both to run this Project as well as to strengthen it to reach several such elders living in the rural and urban slums of selected mandals of Krishna & NTR Districts and its surrounding Districts of Andhra Pradesh.

- 2. Sirisha special school):** SDT has started this Project in the last year (2023 – 2024) for the Children (age group of 5 to 18 years who are having single Parent, no Parents, or living with Relatives) living in rural and urban slums of Gudivada and SURROUNDING Mandals of Krishna District and other parts of NTR District of Andhra Pradesh. This was emerged based on particularly due to the challenges, vulnerabilities, and family crises resulted due to the pandemic of Covid 19 (both during and after).

Under this Project, various benefits extended include: Health Care, Dress, Food, Education, Cultural & Recreational, and other Services & Supports have been extended to 30 Children (Boys 14 & Girls 16) on Day Care cum Residential Care (with the support of Centers of SRC) who were identified during and after the Pandemic of Covid 19. All these 30 Children were identified by the teams of SDT while doing their regular services to various targeted groups and connectivity with various Stakeholders at Community level.

SDT has shown keen interest and conducted various other Activities / Programmes covering various aspects which includes: Awareness cum Advocacy,

issues of Orphans, challenges & opportunities of orphans, causes and consequences of forcing children as Orphan, stigma and isolation from the mainstream, database of orphans, various acts, rights, & provisions / benefits, opportunities for mainstreaming Orphans at all levels, strengthening the systems and service delivery, mechanism of designing, implementation, monitoring & evaluation, preparing the families and communities to support orphans, cultural & recreational activities, exposure to ability shows, visit to marketing places and other public utilities, and other need based to prepare them for better living in an accessible and inclusive environment / community with sustainability.

This is the Project started in the last year (2023 – 2024) and SDT is managing this from its internal resources mainly raised from the individual donors, wellwishers, donors of SRC and need based supports from SRC itself. Trust is in the process of preparing the Project Proposals for submitting to Departments of Government, Private, Corporate, Funding Agencies, and other such Agencies / Departments. SDT is making its process of Resources Mobilization to strengthen it, to scale up to reach the unreached and replicate in other parts of the rural villages and urban slums of the Krishna & NTR Districts of Andhra Pradesh.

- 3. Sirisha CBR Services (SCBRs):** SDT knowing the limitations and challenges of running Center based, SDT mostly works with Home Based Services and Supports to various targeted groups and provisions under various National and International Acts & Policies. Trust has realized, understood, and get equipped to shift the Service Delivery System (SDS) of Center Based and Home Based to Community Based known as ‘Community Based Rehabilitation (CBR)’. CBR is defined as the “Strategy within the Community Development that aims at enhancing the lives of Children and Adults with Disabilities (PWDs) within their Community with equality, equity, dignity, respect and rights”.

It is well defined that “CBR is a multi-sectoral approach working to improve the equalization of opportunities and social inclusion of people with disabilities while combating the perpetual cycle of poverty and disability”. CBR is implemented through the combined efforts of people with disabilities, their families and communities, and relevant government and non-government covering health, education, vocational, social and other services. CBR Matrix matrix consists of five areas / domains headed as Health, Livelihood, Education, Social and Empowerment and each cover five elements. Though CBR works for general rehabilitation of all vulnerable groups, but limits to

Disability Rehabilitation as a model of Development with better Access and Inclusiveness.

In view of the rights and other provisions given in UNCRPD 2007 and RPWD Act 2016, SDT has given priority to work on this model of CBR as it is Community driven with better participation, accountability, responsibility and transparency (PART). This is the Project initiated in the last year (2022 – 2023) by the Trust (guidance and support from SRC) and 30 Children and Adults with Disabilities (Male 14 and 16 Female) living in rural and urban slums of Pamidimukkala, Vuyyuru and its surrounding mandals of Krishna District & parts of NTR District of Andhra Pradesh.

The CBR Project provides Services and Supports for Children and Adults with Disabilities with focus on Intellectual and Developmental Disabilities (IDDs) which includes: Awareness cum Advocacy on the causes and consequences of disabilities, Medical Camps, Screening Camps, Early Identification, Screening cum Assessment, Certification, Early Interventions, School Preparedness, Mainstreaming, Education, Training cum Rehabilitation, Vocational Training, Employment, Livelihoods, Aids & Appliances, Identification of Barriers and Action Plan for their removal, Prevention of the causes of Disabilities, various Schemes and Benefits, and other aspects connected with Disability, Poverty, and Development with Bottom up Approaches (BUAs). This project is in the beginning and will get associated with SRC for strengthening the same to reach several such children and adults with disabilities as specified in various Disability Acts & Policies.

On collaboration, SDT works for making it more effective and efficient to reach the targeted Children and Adults with specified disabilities and to strengthen this project in all aspects covering: Legal, Administrative, Technical and Financial (LATF). Since last two years, Trust has managed this Project on its own with the support of individual donors, wellwishers, supporters. Trust felt it to run the Project difficult with such unsecured supports and it is in the process of submitting need based Project Proposals to Departments of Government, Private & Corporate (under Corporate Social Responsibility – CSR), Funding Agencies and other such Departments / Agencies.

- 4. Sirisha Vocational Training Center (SVTC):** SDT has conceptualized and developed this Project for the Adults with Disabilities (with priority for Adults with Intellectual and Developmental Disabilities – AWIDDs) who have already got trained in some of the Projects of SRC and SDT. This Project is also known
