- ❖ As part of its ongoing commitment to holistic development and sustainable practices, Nidaan initiated a ***Vocational Skill Training*** program for the special children above 11years from ***21<sup>st</sup> February 2025*** onwards at its Priyanka Nagar campus. These organic colors can later be used for making decorative items, during festivals like Holi, or in art-based therapies and creative projects.

Through this hands-on experience, students are learning patience, attention to detail, and teamwork. Moreover, the activity has proved to be highly engaging and calming for the students, making it a valuable part of their vocational training. Such programs play a vital role in equipping students with life skills while promoting environmental awareness and community involvement.

The initiative has been received with enthusiasm and will continue as a regular part of the vocational curriculum.
