Moto of Autism India Today and Activities at our center

About awareness every year the month of April is celebrated as world autism awareness month. At Autism India Today this month is marked with several programs for spreading awareness across the country. AIT offers a variety of services from assessment, diagnosis early intervention re medication, pre vocational and vocational training counseling of parents related therapies speech and language therapy. occupational therapy .daily living skills training art therapy and physical education. The services are multi-dispensary in and follow autism specific and research based methods Autism India today is running a school for Children with autism where special education provided according to their individual needs. Verbal behavior analysis ,Applied behavior analysis sensory integration Music, Dance, Play and Yoga therapy is also Provided Along with Special education to the children Apart from regular services of assessment, intervention and training programs for parents and home program and activities for children also provided by AIT Pre vocational department of Autism India Today makes several items which are showed at exhibitions The items includes pot painting pot designing paintings jewelry making and creative art activities. All the festival's are celebrated to ensure that the students understand the significance and meaning of each festival . Our purpose is to impart early intervention and prepare the children for main stream school. Many children have been successfully placed in main stream school. Complete assessment of students are conducted .The IQ of the student is assessed in all areas and based on that student is placed in appropriate group. A comprehensive assessment in all areas is then conducted and an SEP is drawn up. After IEP and sensory evaluation education as well as sensory input is provided to them by making their individual program through early intervention education and occupational therapy according to their individual needs Educational program aims to support children with autism to access educational! services in the general education system. The education being received supports the child, the school and families supportsthem in admission process into mainstream government and private schools
